

ROLLAND

CacheSystem 400

- ✓ Collect and Secure Cash
- ✓ Count and Validate Funds
- ✓ Audit and Report Activity
- ✓ Save Time
- ✓ Data Communication Capability

- **Reduce Counterfeit.** Bill validator provides the highest level of first-time acceptance and unsurpassed counterfeit detection.
- **Reduce Internal Fraud.** Transactions are recorded with a unique employee personal identification number (PIN). Tracks up to 240 users.
- **Efficiency.** Cash drops are recorded for each user so register close out is more efficient and deposit preparation is reduced from hours to minutes, error free.
- **Reduce Risk of Robbery.** Time delay ranging from 1-99 minutes forces an intermission of designated time between code entry and safe access, which deters robbery.
- **Features.** Durable and user-friendly liquid resistant key pad. Four pre-drilled holes for wall mount and wall-mounting hardware kit.
- **Reporting.** 30 types of receipts and reports, including end-of-day activity and individual user reports on a high-speed printer. Store up to 183,000 records.
- **Security.** Soft and hard limit settings prompt managers to transfer contents to a traditional safe. 10 programmable security levels.
- **Communication.** Users can access and evaluate transaction data over the ethernet to provide real-time comparisons with POS activity.
- **Training and Support.** Each CacheSystem includes a thorough user manual and a "Quick Reference Guide" to get you started. Individual or group training classes are available. Every customer receives free 24/7 phone support for the lifetime of their safe.

Lower Total Cost of Ownership.

Rolland CacheSystems are a series of parts instead of one single piece. This allows managers to upgrade one piece at a time instead of the whole. If a part needs to be replaced or serviced, it is easy to switch it on-site.
